By request, the Atelier space is also made available for private events, perfect for intimate gatherings with friends and family, to customer appreciation and team building opportunities.

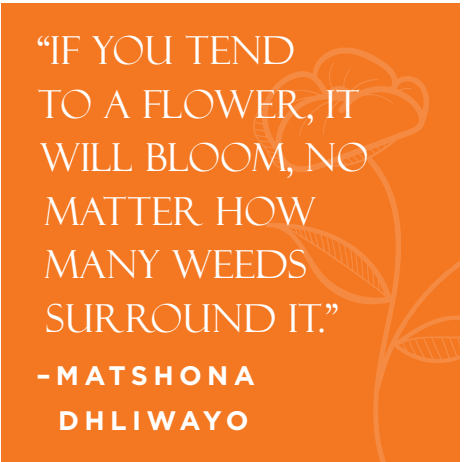

We hope you will consider one of our upcoming classes where you become the designer and take home beautiful arrangements coupled with the great irreplaceable "I made this" feeling, when experiencing your very own design your own home or giving it away as a gift to loved one. BEAUTIFUL BLOOMS

The Daffodil (The Narcissus)

Emerging at the winter’s end, the cheery daffodil is sunshine-yellow and heralds the coming spring season representing new beginnings. Named after the classic tale of Narcissus, who was extremely handsome and irresistible to those around him. This came with a curse. Narcissus was not able to look at his own reflection as it would cause his good looks to disappear.

Narcissus was walking in the woods when he was approached by a nymph, Echo. She was attracted to his beauty and tried pursuing him, but the love was unrequited. Heartbroken, she spent the rest of her life roaming the woods wailing, until nothing was left but the sound of her voice (an echo).

When the gods and goddesses heard this, they were angry at Narcissus. They decided to punish him by leading him to a sparkling lake. He saw his reflection in the water and was so taken back from his stunning physical appearance, that he was unable to look away. He vanished into the lake and all that was left was the daffodil.
