QUARTERLY NEWSLETTER | WINTER 2023

A blooming SUCCESS

It has been an eventful few months here at Narcissus Florals as we celebrated the official grand opening of Narcissus Atelier! This exciting new space showcases an array of educational workshops and private events at our Spring Lake location.

We have an amazing lineup of workshops coming up in 2023 that include succulent terrarium designing, watercolor classes, dish garden designs, indoor planting, floral pressing and so much more. We also plan to unveil our new Destination Series of wonderful and worldly places we all adore. First stop will be on January 25th for a beautiful Amalfi Coast design-inspired workshop. In this spectacular class, you will be designing two arrangements - a hand tied bouquet in a glass vessel and a specialty larger stylized centerpiece. Light fare and refreshments will be provided for a taste of the southern Italian coastline. Learn more about our upcoming classes and secure your spot at mynarcissus.com/atelier.

We hope to see you at one of our upcoming events very soon! Until then, as always, we hope you enjoy browsing our beautiful online floral galleries or visiting one of our conveniently located design studios. We feature seasonally available product, responsibly sourced and hand designed, as well as flower delivery just for you and yours.

Until next time!

THE PERFECT PIECE

Penny Lane

This lush and elegant design of classic blooms with a twist is artfully designed in a vintage vessel. Send this beauty for any occasion, as it is sure to lift the spirits and put a song in their heart.

HAPPILY EVER AFTER

What's on trend this winter season? We absolutely adore winter pastels. Pops of pink, lavender, sky blue, pale yellow and peach make the most beautiful bouquets and centerpieces. Add in some wispy greenery for the perfect finishing touch.

BEAUTIFUL BLOOMS

The Rose

With Valentine's Day fast approaching, there is no better flower to spotlight than that of our dearest rose, also known as our National Flower. There are over 300 species and tens of thousands of cultivars of the famed flower that is most commonly found in shades of red, white and pink.

FUN FACT: *Did you know that roses are one of the oldest flowers? Archaeologists have discovered rare rose fossils that date back 35 million years.*

THE *best* THING

Create your own version of one of our best sellers in just a few easy steps!

WHAT YOU WILL NEED:
