THE PERFECT PIECE

Gloria

This large and elegant display of lush blooms is sure to be unforgettable. The Gloria design features roses, hydrangea, orchids, alstroemeria and mixed garden greenery. This one-of-a-kind arrangement is perfect for the big moments, small moments, and everything in between.

Did you know the color of a hydrangea is determined by the soil? Different pH levels bring different colors. The lower the pH level, the bluer the hydrangea will be. The higher, the pinker! If your soil has varying pH levels, you could end up with a blend of colors.

HAPPILY EVER AFTER

Bold and brilliant florals are flourishing this wedding season. We're pressing pause on pastels while couples are embracing color. Pinks, greens, and regal jewel tones, like ruby, dark turquoise and emerald are here. Opting for a bold color palette opens the door to a wider variety of flowers and accents for our design team to explore and work with! Will you go BOLD?
